

```
motorsDirections(1,1,0,1);  
motorsSpeed(190,190,190,0);
```

Diagram illustrating the motor control code and its parameters:

- motorsDirections(1,1,0,1);**: The parameters 1, 1, 0, and 1 correspond to motors M1, M2, M3, and M4 respectively, indicating their rotation directions.
- motorsSpeed(190,190,190,0);**: The parameters 190, 190, 190, and 0 correspond to motors M1, M2, M3, and M4 respectively, indicating their target speeds.
